

Lifting Lamb Survival – Potential into Product

Innovative supported learning project focusing on improving lamb survival

Northern Midlands - Tasmania

VENUE	'Logan', 635 Logan Road, Evandale
TIME	Session 1 - Setting up the lambing plan - 1 August – 9am to 4pm Session 2 - ½ day coaching on participant's farm – by appointment Session 3 - Fine tuning the lambing plan, 10am to 3pm – group to set date Session 4 - Reviewing the 2018 lambing plan, 9am to 3pm – group to set date

What you will learn:

- Strategies to improve lamb survival and reduce ewe wastage
- Best practice management for lambing
- Prepare the ewes and their lambing paddocks to enable a better lambing
- Increase the kilograms of wool and/or lamb produced per hectare

How you will learn:

- Three group workshops on the Lambs Alive Demonstration Farm ('Logan', Evandale) (full day and two half days)
- Half day "one on one" coaching session on each participant's property
- "Hands on" planning and implementing your own lambing plan

Other features and benefits for you:

Calculate lamb loss and ewe wastage, feed budgeting, paddock allocations, differentially manage twin and single bearing ewes, undertake lamb autopsies, identify causes of lamb loss, keep good lambing records, implement strategies to increase lamb survival, focus on lambing density and improving ewe and lamb nutrition, follow the success of strategies on the demonstration farm.

Cost:

The commercial cost of this program is:
\$1600 + \$160 GST = \$1760

However, with the support of MLA's Profitable Grazing Systems Program, this course is discounted for sheep producers:

\$1120 + 112 GST = \$1232 per business

(Note: this rate is based on a maximum of two participants per business. Each additional business member participating costs \$200 + \$20 GST)

Registration is essential as places are limited
