Pest Animal

Substance

- | | |
|---|--|
| 1. Bennetts wallaby (<i>Macropus rufogriseus</i>) | (a) Sodium monofluoroacetate |
| 2. Brush possum (<i>Trichosurus vulpecula</i>) | (a) Sodium monofluoroacetate |
| 3. Cat (<i>Felis catus</i>) | (a) Sodium monofluoroacetate
(b) Cyanide
(c) Alphachloralose |
| 4. Dog (<i>Canis familiaris</i>) | (a) Sodium monofluoroacetate
(b) Strychnine
(c) Cyanide |
| 5. Fox (<i>Vulpes vulpes</i>) | (a) Sodium monofluoroacetate
(b) Strychnine
(c) Cyanide |
| 6. Goat (<i>Capra hircus</i>) | (a) Sodium monofluoroacetate |
| 7. Hare (<i>Lepus capensis</i>) | (a) Sodium monofluoroacetate |

8. House mouse (*Mus musculus*)
- (a) Sodium monofluoroacetate
 - (b) Metallic phosphides
 - (c) Methyl bromide
 - (d) Any rodenticide approved by the NRA and specified in Schedule 5 or Schedule 6 to the [Poisons List Order 2001](#)
 - (e) Cholecalciferol
9. Pademelon (*Thylogale billardieri*)
- (a) Sodium monofluoroacetate
10. Pig (*Sus scrofa*)
- (a) Sodium monofluoroacetate
11. Rabbit (*Oryctolagus cuniculus*)
- (a) Sodium monofluoroacetate
 - (b) Pindone
 - (c) Alphachloralose
 - (d) Metallic phosphides
12. Brown rat (*Rattus norvegicus*)
- (a) Metallic phosphides
 - (b) Methyl bromide
 - (c) Any rodenticide approved by the NRA and specified in Schedule 5 or Schedule 6 to the [Poisons List Order 2001](#)
 - (d) Cholecalciferol
 - (e) Sodium monofluoroacetate
13. Ship rat (*Rattus rattus*)
- (a) Sodium monofluoroacetate
 - (b) Metallic phosphides
 - (c) Methyl bromide

(d) Any rodenticide approved by the NRA and specified in Schedule 5 or Schedule 6 to the [Poisons List Order 2001](#)

(e) Cholecalciferol

14. Starling (*Sturnus vulgaris*)

(a) Alphachloralose

(b) Fenthion

(c) 4-aminopyridine

15. Any other bird not referred to in item 14

(a) Alphachloralose

(b) 4-aminopyridine

16. All mammals

(a) Alphachloralose

17. All fish

(a) Rotenone
